Regulation Defining and Prescribing Test for Product Desired. Booster Trip Planned.

Investigation of the sale of gasoline in the District is to be made by municipal officials and representatives of the Retail Merchants' Association.

Complaints to the latter organiza tion to the effect that gasoline is being sold, in many instances, at short meas ure and in inferior quality resulted in a conference on the subject today between Charles J. Columbus, secretary of the association, and Commissione Brownlow, who has supervision of the District department of weights, meas-

District department of weights, measures and markets.

Mr. Columbus was asked to ascertain from the hureau of standards whether there is any law defining gasoline. If such a law exists, and instances are found of gasoline being sold here that does not measure up to the standard prosecutions may be brought under the false advertising law, it was stated.

Request also was made of Mr. Columbus that he ascertain what laws and regulations are in effect in other cities regarding the sale of gasoline. As soon as this information is obtained consideration will be given to the question of recommending an upto-date law for the District that will fully cover all the conditions complained of, it was said.

Move Made by Merchants.

At a meeting of the board of gov ernors of the association in the rooms of the organization in The Star building last night action was taken toward having the Commissioners make regulation defining gasoline and prescribing a test to be met of the fuel sold to Washington motorists.

R. P. Andrews, president of the asso ciation, called attention to a similar regulation which he said had recently been promulgated in Baltimore Mem. bers of the board expressed themselves as being of the opinion that remedial action is necessary here. If it is not within the power of the Commissioners to prescribe such a test, the association may take action through the false advertising law.

TWO-THIRDS OF VILLISTAS **EXECUTED AT CHIHUAHUA**

Gets Reports on Recent Attacks Upon Town.

The Villista attack on Chihuahua was ontrolled within five and a half hours, and within eight hours the constitutional squad two-thirds of the reactionaries who participated in the attack, accordng to a statement given out today by Charles A. Douglas, legal adviser in Washington for the constitutionalist gov-

ernment.

This statement is based on dispatches' received by Mr. Douglas from First Chief Carranza after he had received the official reports of Gen. Jacinto Trevino, who repulsed the attack, and from the Governor of Chihuahua. According to this statement, "the attack on the city of Chihuahua began at 3 a.m., on September 16. It was given help by a number of Villa partisans that were inside the city. The reactionaries took posses-

sion of the fall federal palace and of the state palace.

"Gen. Trevino organized his troops and defeated the reactionaries, and in doing so had to bombard the buildings that were in the hands of the Villistas, taking possession of same at \$.30 o'clock.

"At 11 o'clock order had been completely restored, and all Villista prisoners were put before the firing squad, and only one-third escaped. The constitutional forces fulfilled the part of the program assigned to them during the review on Independence day.

"It is not true that there had been disloyalties among the soldiers of the constitutional army. All of them fulfilled their duties, as well as all civil employes that were at their posts at the moment of danger.

"Gen. Trevino was himself in command."

"Gen. Trevine was himself in command of the troops, and was slightly wounded in one arm. The army corps of the northwest, that is in its greater part operating in Chihuahua, is being now reinforced with brigades of other divisions in order to establish order in that state."
